

# Privacing Newsletter

August 2021

## Welcome to e-Privacing!

e-Privacing – an ERASMUS+ funded project led by CIVIC Computing – has officially begun! Work on the project kicked off properly following the first official project meeting that took place in July of this year.

The meeting was a great success, with all partners – representing organisations in the UK, Netherlands, Cyprus, Greece, and Romania – present. They took time at this meeting to introduce themselves, discuss project activities and their own roles, and devise a plan of activities for the coming months.

Partners also discussed quality management and dissemination

in the project, agreeing the specific deliverables to be produced, such as this newsletter and social media accounts.

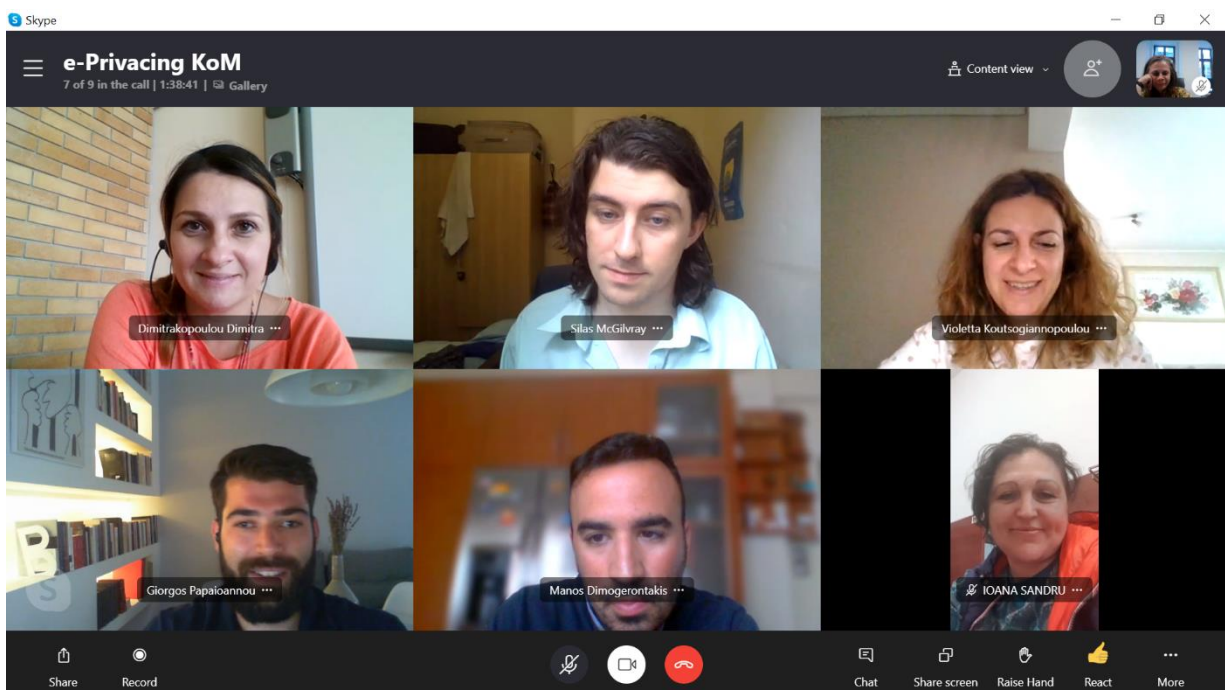

Also discussed was quality management and dissemination, where agreement was reached to produce a regular newsletter and social media accounts, whose details you can find on the next page below. Updates on newsletters and project meetings will be posted there, and a website is also under construction under the address below so be sure to follow and watch this space!

## Project Objectives

E-Privacing is an ERASMUS+ funded project that hopes to raise awareness of digital privacy and security issues, particularly in education.

It aims to achieve this through several activities over the course of two years:

1. Developing a guide that will help educators as well as students and parents understand the risks of and remedies to digital security issues.
2. Creating an online portal through which project materials can be accessed.
3. Creating a virtual Academy through which educators and other stakeholders can share knowledge and best practices.

## Meet the Partners

**CIVIC Computing (UK)** – an Edinburgh-based digital agency and project coordinator

**Atermion (NL)** – a Dutch company specialising in gamification and educational technology

**ELLINOGERMANIKI AGOGI (EL)** – an educational organization in Greece with an active and innovative R&D department

**HeartHands Solutions (CY)** – a dynamic consultancy company based in Cyprus

**CELR** – a private school in Romania promoting a European education

ΣΟΦΙΑΙΔΑΜΑΤΣ  
ΙΟΥΝΕΤΑΙΡΟΙ &  
ΔΙΚΗΛΟΡΙΚΗ ΕΤΑΙΡΕΙΑ

**S&P** – a modern, corporate law firm based in Athens with experience in data protection
